

HARRIS RANCH

Heroes Initiative

HELP US BRING HEALING TO OUR HEROES

The Numbers

Did you know 22 veterans take their lives a day? Additionally, 1 in 3 first responders develop mental health issues. It's time to prioritize the well-being of those who protect our country and communities. Hometown Hero Outdoors is dedicated to supporting actively serving military, veterans, and first responders. Our mission is simple yet profound: to provide outdoor opportunities that aid in mental health healing and foster healthy community relationships.

Harris Ranch

Located in south Texas, the Harris Ranch has generously pledged to host 100 heroes per year for the next decade. This ranch offers all the amenities necessary to facilitate our programs, and we've already had the privilege of hosting over 50 members there. Activities at the ranch range from whitetail deer and turkey hunts to arrowhead hunting. Further activities include land conservation projects, specialized training such as Applied Suicide Intervention and Skills, and marriage retreats.

Your Support

By donating to Hometown Hero Outdoors, you'll be helping us introduce even more military service members, veterans, and first responders to the healing power of the outdoors at the Harris Ranch. Your support could make a significant difference in the lives of these heroes. Please reach out with any questions and you can find additional information by scanning the QR below.
